FEDERAL BRISTOL

6 REASONS TO SHIP WITH FALLINE (FEDNAV ATLANTIC LAKES LINE)

#1 SAFE, SOUND, AND ON TIME

Our modern, efficient fleet transports general cargoes that include a strong steel base such as bars, beams, billets, blooms, coils, pipes, plates, sheets, tubes, and wire rods.

We transport a variety of cargo that includes industrial machinery—excavators, transformers, dryers—as well as agricultural and various types of vehicles, press parts, yachts, beer tanks, voluminous cargoes, and packaged goods.

Units in excess of standard port crane capacity can be accommodated at heavy-lift berths located in Hamilton, Milwaukee, and Burns Harbor.

Vessels are often complemented with parcels of bulk commodities.

#2 HIGH-FREQUENCY DELIVERIES THAT MEET OUR CUSTOMERS' NEEDS

On average, FALLine offers 50 to 60 sailings from North Europe to St. Lawrence River and Great Lakes ports, drawing from a fleet of close to 50 Lakes-suitable vessels.

3 A SELECTION OF PORTS OFFERING SCHEDULING AND BUDGET FLEXIBILITY

Main ports of loading are Antwerp, Bremen, Hamburg, Gdansk, Gijon, Pasajes, and Teesport.

Regular discharge ports are Burns Harbor, Chicago, Cleveland, Detroit, Hamilton, Milwaukee, Sorel, Thunder Bay and Trois-Rivières.

Other ports of loading and discharge can be added on inducement, offering our customers flexibility and options.

FALLine is a proud member of HWY H₂O, an alliance of transportation stakeholders in the Great Lakes/Seaway System region working to develop business and deliver greater awareness about the system locally and internationally.

4 DELIVERING THE HIGHEST LEVEL OF SERVICE AND RELIABILITY FOR OVER 65 YEARS

Exceeding expectations every day is our mission by delivering service, reliability, and professionalism to a growing number of customers on both sides of the Atlantic. Going above and beyond for our customers is what will continue to set us apart and create more opportunities for growth.

5 LARGEST AND HIGHEST QUALITY ICE-CLASS FLEET OF GREAT LAKES-SUITABLE SHIPS

Fednav operates the largest and most modern fleet of Seaway-max vessels in the world. These versatile bulk/general cargo carriers, most of which are of ice-class designation, are managed at very high standards to ensure quality service and reliability, while minimizing their environmental footprint.

6 ENSURING A SUSTAINABLE ENVIRONMENT

Committed to the environmental sustainability of the ocean, waterways, and communities in which we operate, we are very involved in reducing our footprint. True to our core value of corporate social responsibility, we pledge to respect community and environment.

Fednav is a founding member of Green Marine, a voluntary environmental certification program of the North American maritime community.

THE #1 TRANSATLANTIC BREAKBULK SERVICE FOR PEACE OF MIND

FALLine's success is largely attributable to a dedicated group of long-standing commercial and port agents that partner with the FALLine team to deliver a higher standard for many years.
